Star-Max® Electric Hot Plate

□501FF □502FF

502FF

DESCRIPTION

Star-Max® electric hot plates are designed to be a reliable, versatile, and maintenance-free solution for almost any menu item. These units come in a wide variety of sizes and styles to fit any operation and provide the long-lasting solution you need for warming, cooking, and sauteing.

SPECIFICATIONS

Star-Max® electric hot plates will be constructed of aluminized steel with a stainless top and front bullnose. Units will be equipped with infinite control[s], pilot light[s], and sealed cast iron elements. Units will come with a junction box on the rear, ready to hard-wire or have a plug attached. The units will be designed to operate at 208 V/240 V. Units will be supplied with 4-inch (102 mm) tall legs.

WARRANTY

These units come with a two [2] year warranty for parts and labor.

FEATURES

- Sealed cast iron french top[s] for fast, even heating
- Independent temperature control for each burner
- Double-wall construction, enclosed bottom, and solid top reduce heat loss and provide a more comfortable work zone
- Compact design to fit almost any operation
- Heavy-duty metal knobs
